

## Nomination process after trading on the ETPA platform

Version: 2

Last modification date: 15 dec 2024

### Nomination process

Etpa nominates all the traded energy to the appropriate TSO. For all the trades that participants have executed on our platform, Etpa's Balance Responsible Party (BRP) / Balance Group (BG) will be counterparty. Etpa nominates Timeseries per Delivery Day (D).

EAN/EIC code Etpa:

Country	EAN/EIC code
Netherlands	8712423036710
Germany (all four German Delivery Areas):	49X000000000083C

Product country mapping:

Product	Bidding Zone	Trading times	
		From	To
XBID intraday	NL	15:00 D-1	23:44:59 D
	DE	15:00 D-1	23:39:59 D
GOPACS	NL	00:00 D-1	23:29:59 D
Local intraday <sup>1</sup>	NL	15:00 D-1	23:44:59 D
Ex-post	NL	00:30 D	9:30 D+1

All traded Etpa products (XBID intraday, Local Intraday, GOPACS and Ex-Post) are aggregated into one single Timeseries nomination towards our counterparty (being your BRP/BG) to the appropriate TSO.

### When do nominations start?

Depending on which product you traded, nominations of the corresponding Timeseries will immediately start after the trade occurred.

In general, the nomination process is as follows:

- New trade positions are updated into the counterparties' Timeseries every 15 minutes and sent to TSO.
- The first schedule will be sent after the Gate opening for the corresponding TSO.

First and last Etpa schedules send to TSO's per country

Country	Gate opening for D	Gate closing for D
Netherlands	17:02 on D-1	9:47 on D+1
Germany	18:02 on D-1	23:47 on D

---

<sup>1</sup> only when XBID is not available

Within this timeframe Etpa updates their counterparty positions every 15 minutes towards the TSO based on the traded positions.

Please note here: that between 15:00 and 17:02 on D-1 we do not nominate the Trade values yet. This is because the gate-opening for the TSO has not yet occurred.

**What happens when a participant does not follow Etpa's nominations?**

Etpa has priority over other counterparties (this has been granted during onboarding of the participant). This means that if parties do not follow schedules provided by Etpa, Etpa's nominations with respect to the BRP of the participant have precedence with the TSO.

NOTE:

We strongly encourage parties to follow our nominations to avoid frequent anomaly messages sent to them by the corresponding TSO.
